**Reward from Coaching:**

The reward I get from coaching is knowing that I impacted the development of someone and taught him/her a new skill or a new way to approach the game. Being able to step back and watch sometimes is the greatest feeling when things are operating in the manner you set out to teach.

**Vision for Club:**

My visions for Mockingbird Valley Soccer Club start with creating and maintaining a winning attitude. I want the club starting with the coaches followed by the players, then the parents to understand that being apart of our club is a privilege and that we only want to best. I want National recognition for the club and I want players from our club to walk away better equipped for the world's game.
